Our Plan 19
Our Team 25
Ten years ago I would have told you our fundraising goal was to end the disease that took my son. Today, we know that is not going to happen and we have a better understanding of where to focus our attention and efforts.

As I have leaned into the heartbreak of losing Ollie and come to terms with the disease that took him from us, I have seen the reactive, not proactive, nature of cardiac care that leaves heart families to endure and navigate their mounting unmet needs alone. It is time we shift away from how we have always done things. We are moving into a landscape that will transform the future of pediatric heart care. Every heart child and family will be wrapped in love to eliminate the traumas endured by living with a chronic illness. We will do so by uniting heart families and clinicians through community; providing access without barriers; extending lifelong support to heart families; connecting the technical and human side of care; and through education, empowerment, and advocacy.

Pediatric heart disease is a chronic, lifelong illness that families endure. Heart families face many hardships that are out of their control and there is no roadmap to help them navigate. At Ollie Hinkle Heart Foundation (OHHF) we ease their stress by creating programs that address their unmet needs—Community Outreach to wrap them in love, Ollie’s Branch for mental health support, and Technology and Research to improve outcomes. We are dedicated to creating a lifeline to lifelong support so heart families no longer endure the endless traumas that Mark and I and so many other families have faced.

We loved Ollie as hard as we could for 13 months and while he may be gone, that immense love is not. Ollie’s legacy is about being courageous and innovative to lead change, which takes a village—from our talented OHHF team, to our passionate Board of Directors, to our generous donors, to the courageous heart community, and to the dedicated clinicians who serve this community. Our love for one little boy and all of your love for us has created a community that has changed the lives of tens of thousands of individuals. All we have accomplished, we accomplished together! And together we are going to transform the future of pediatric heart care.

- JENN HINKLE
Executive Director, Co-founder, and Ollie’s Mom

Meet Jenn and Mark Hinkle, parents to Maddie, Ollie, and Annie and co-founders of Ollie Hinkle Heart Foundation. Long before they were parents, Jenn and Mark were on separate professional journeys that connected them in 2004 through their love for people, food, and wine. Little did they know that life would test them beyond the imaginable and that they would become leaders in the non-profit and hospitality industries both in their local community and nationally. Jenn & Mark’s passion, expertise, and values allow OHHF to strive for greater impact and create a legacy for all heart warriors and families to be seen, supported, and remembered.
OUR MISSION

The mission of Ollie Hinkle Heart Foundation is to address the unmet needs of heart families while transforming the future of pediatric heart care.

OUR PILLARS

- Uniting heart families & clinicians through COMMUNITY
- Extending lifelong SUPPORT
- Providing ACCESS without barriers
- Promoting education, EMPOWERMENT, and advocacy
- CONNECTING the technical & human-side of care

OUR VALUES

OUTCOMES
Create purpose not tasks

LOVE
Wrap one another in warmth and respect

LEGACY
Be courageous and innovative to lead change

INSPIRE
Turn limitations into possibilities

EQUITY
Create space to speak your mind and share all your heart

“Jenn and Mark...we are so proud to know you and how you have taken the unimaginable suffering you experienced and turned it into a lifeline for others who share your trauma. Words are not enough. You guys are amazing. Thank you for all you do. So, so many are helped and supported. Only you would know the totality of what that means.”

- Heart Hero
We show up each day to wrap heart families in love, belonging, and empowerment. We aim to provide a lifeline to lifelong support that highlights our unique strengths. This includes:

- Diverse talents and identities working together in our community to put the heart back in healthcare
- Equity in how we create access to care without barriers
- Inclusion in how we unleash the power of love

OHHF is committed to looking through a collective lens to serve our local and national community. We put families’ mental and physical well-being at the forefront of care. We do this by eliminating barriers, advocating for necessary state and federal policy change, and addressing social determinants of health. We do this work through partnership, collaboration, love, acknowledgement, and reconciliation.

OHHF provides services and programs to every heart family regardless of race, color, nationality or ethnicity, age, gender identity or expression, sexual orientation, religion or spirituality, language, national or social origin, ability, and socioeconomic background.

Bring your whole self, and let’s make a difference together!
The needs of the heart community are layered and complex. Heart families are at an increased risk for mental illness. They cope with excessive medical appointments and cardiac procedures, long and multiple hospitalizations, and increased risks of other illnesses for their child. This can result in extensive financial, emotional, and familial costs. Often, we must identify and meet a family’s basic needs before we are able to address their psychological and social needs.

Our vision is that every heart child and family will be wrapped in love to eliminate the traumas endured by living with a chronic illness.
Caring for a child with heart disease is a lifelong journey as pediatric heart disease is a chronic, unrelenting illness. OHHF provides a spectrum of support throughout a child’s lifetime, even in the unfortunate circumstance that they pass away, allowing families constant access to loving, reputable services without barriers. This is accomplished through four strategic programs: Community Outreach, Ollie’s Branch, Technology and Research, and Take Heart.
OUR IMPACT
Congenital heart defects are the #1 MOST COMMON birth defect in the world

1 MILLION+ children are living with heart disease in the United States

"Thank you for generously sharing such incredible moments, offering hope, and bringing light to a disease that affects so many."
- Heart Hero

"The work you do is beautiful, amazing, and transformative. I am in awe."
- Heart Mom

OHHF has provided counseling for both me and my daughter, helping us learn how to cope with my child’s diagnosis and prepare for future surgeries. I love that they are here to support the entire family. I promise you will not find a better organization. They have first hand experience of what being a heart family is like and are the most caring and encouraging people.”

- Heart Mom

THE WHY
Parents of children with critical CHDs are at an elevated risk for mental health issues

84% Symptoms of trauma
55% Severe psychological distress
50% Depression and/or anxiety
30% Posttraumatic stress disorder

1 in 3 parents develop acute stress disorder
The **mission** of our Ollie’s Branch program is to offer compassionate, accessible mental health support to allow peace of mind for families and caregivers of children with or affected by pediatric heart disease.

Supporting the mental wellness of heart children and their families and caregivers is a top priority for OHHF. If not properly addressed, the stress and challenges heart children, parents, and caregivers face can have significant, lasting effects. Ollie’s Branch is an access point to mental health specialists that support heart families through therapy sessions offered at no cost to the recipient.

### NATIONAL PROGRAM METRICS

- **495** Referrals
- **1,761** Sessions

### LOCAL PROGRAM METRICS

- **271** Referrals
- **374** Sessions

OHHF has been at the forefront of mental health support since 2018 by funding the Perinatal Behavioral Health Service at Washington University. This program provides mental health screening, evaluation, and treatment to inpatient and outpatient heart parents and caregivers at St. Louis Children’s Hospital.

### OUR THERAPIST COMMUNITY

- **180 licensed therapists** supporting **43 states**

### HOSPITAL PARTNERS

- St. Louis Children’s Hospital
- SSM Health Cardinal Glennon Children’s Hospital
- Mercy Kids Children’s Hospital St. Louis
- Ranken Jordan Pediatric Bridge Hospital
- Children’s Mercy Hospital Kansas City
- Ann & Robert H. Lurie Children’s Hospital of Chicago
- Lucile Packard Children’s Hospital Stanford
- UH Rainbow Babies & Children’s Hospital
- Boston Children’s Hospital
- Rady Children’s Hospital
- Seattle Children’s Hospital
3 out of 10 clients are from households with annual incomes under $50,000

The average wait time to be connected with a therapist through Ollie's Branch is \textbf{8.42 days} (target range 10-14 days)

\textit{National average wait time is 6-8 weeks}

4 out of 10 clients live \textbf{an hour or farther} away from the hospital where they primarily receive cardiac care

\begin{itemize}
\item \textbf{60\%} showed improvement in anxiety markers
\item \textbf{75\%} reported that treatment was extremely helpful or very helpful
\item \textbf{93\%} reported that they were satisfied or very satisfied with the time it took to get a session
\item \textbf{64\%} showed improvement in depression markers
\end{itemize}

\textbf{WHO WE SERVE}

\begin{itemize}
\item \textbf{46\%} of these heart parents have a heart child who is \textbf{3 years old} or younger
\end{itemize}
The **mission** of our Community Outreach program is to provide individualized support to ease the hardships experienced by heart families.

Supporting the economic security of heart children and their families is at the center of our work. Pediatric Heart Disease (PHD) impacts a child’s long-term survival and every aspect of their life, as well as their parents’ or caregivers’. This includes employment opportunities, finances, insurance, psychosocial health, and other facets of life that children and families without PHD otherwise take for granted.

---

**RESPONSE TIME**

1.5 DAYS

Number of days from inquiry to request completion

**COMMUNITY PARTNERS**

- Peer-to-Peer Support
- Financial Aid
- Food/Nutrition Security
- Housing Security

Provided $50,000 to Ronald McDonald Charities of St. Louis to support short-term housing needs of displaced families of ill children.

**REFERRALS FOR SOCIAL NEEDS**

- **Housing Security**

  - 75% of clients are from households making **less than $50,000**
  - Close to 100% of heart families struggling with food insecurity fall at or **below** the federal poverty line

- **Transportation Security**

- **Food/Nutrition Security**

  - Average food security grant for a family of 4 is **$500**, covering approximately 1 month of nutritional meal bundles
PEER-TO-PEER SUPPORT

OHHF is proud to be a leading source of information and loving support for heart parents in the St. Louis area and beyond. We serve as a point of comfort, understanding, and education. By working both directly with families or indirectly through community partners, we can connect patients and families affected by a specific type of heart disease and who face similar hardships to create bonds that otherwise would not exist.

75% Receive Direct Support

25% Receive Indirect Support

CONNECTING EVENTS

FINANCIAL SECURITY GRANTS

Housing $39,229
Rent, mortage, hotel, etc.

Medical Bills $915
Copays, prescriptions, out-of-pocket expenses, etc.

Other $9,924
Funeral assistance so heart families can bury their child with dignity

Utilities $6,943
Electric, natural gas, water/sewer, phone/internet, etc.

Food Support $2,900
Groceries, meals to hospitals, grocery gift cards, etc.

Medical Bills $1,238
Clothing, daily necessities, etc.

Transportation $9,424
Airfare, auto payment/repair, fuel cards, public transportation, etc.

Care Packages $6,818
Individualized gifts and necessities to fit the specific needs of each family, all gifts from Holiday Giving

Other $77,391
Increase from 2021

56%
The **mission** of our Technology and Research program is to improve outcomes in pediatric heart care by collaborating with innovators on cutting-edge advancements.

In 2022, we funded a project with Boston Children’s Heart Center (BCHC) that encompasses all three of the focus areas of our Technology and Research program: prediction, precision, and prevention.

Imagine your heart child having a smart fitness device to optimize their physical and mental health by understanding and supporting their specific heart condition through clinical and fitness data. By using artificial intelligence, the fitness device uses characteristics specific to your child that overcome biases and beliefs embedded in traditional cardiac rehabilitation. This ground-breaking work at BCHC will create a new standard of care in pediatric cardiac fitness across the U.S., making it possible for heart children to find their possible just like Diya.

Meet 15-year-old Diya who has Double Outlet Right Ventricle with Hypoplastic Left Ventricle.

**AWARENESS**

Informed **30%** more heart families about advances in technology and research that could **help their child** at our 2022 Take Heart Conference compared to 2021.

**PROJECT FUNDING**

5 Evaluated

1 Funded

**SHARING KNOWLEDGE**

*Increased our reach by 20% with our heart community by sharing updates on artificial intelligence in cardiac ICUs, advances in cardiac interventions, and the use of stem cells to improve quality of life.*
The mission of our Take Heart program is to cultivate an equitable standard of care that centers the voices of heart families in collaboration with clinicians and health systems.

We accomplish this by:
- **Empowering** and educating caregivers
- Building **confidence** and courage
- Advocating for **change**
- Driving **results**

**CONSULTING**

Completed first consulting contract with the Heart Institute at Rady Children’s Hospital - San Diego.

“Efficient, organized, and able to speak to both the clinical and business needs of developing a strong subspecialty program”

- Pediatric Cardiologist

- Education Action Group
- Community Outreach Committee
- Ollie’s Branch Committee

---

IMPACT REPORT 2022
OUR PLAN
THE WHY

The socio-economic, physical, and psychological needs of heart children are 3-4x greater than those of other childhood illness, yet these needs are the least funded and represented.

9 out of 10 children born with a heart defect now survive into adulthood thanks to medical advances.

"What a testimony to the beauty and purpose you have found in your grief and suffering."

- Heart Hero

"Taking this time to say thank you for all you do. Far too often, we don’t hear it enough but I wanted to say THANK YOU for your willingness to fill in gaps in care that are SOOO important for patients and families!"

- Healthcare Worker
OUR STRATEGY

OHHF’s goals are to extend our reach, expand our resources, and grow our referral sources through a hub-spoke model that keeps OHHF rooted in St. Louis, its hub, and connects the heart community nationally. Many heart families travel to St. Louis for specialized care, and local families may travel out of state for procedures only offered at specific pediatric hospitals. OHHF is creating a network of partners to connect local and regional resources to support our community equitably.
OUR PLAN

Scaling our programs thoughtfully based on the needs of our community, while strengthening our foundation to extend lifelong support to heart families, and ensure our sustainability.

OLLIE’S BRANCH
Help OHHF raise additional funds to reach more heart families with compassionate, accessible mental health support.

- Partnering with 28 hospitals over the next 3-5 years*
  *Adding 2-4 new markets in 2023
- Scaling infrastructure to support growth through an OHHF Telehealth platform

COMMUNITY OUTREACH
Join our efforts to strengthen our hub in St. Louis to address health-related social needs.

- Providing food and nutrition security support for heart families transitioning to home from the hospital
- Expanding housing security to address short- and long-term housing needs for heart families

TECHNOLOGY & RESEARCH
Be a partner in changing outcomes for heart children.

- Establishing a dedicated endowment fund with investments from multiple partners committed to improving outcomes in pediatric heart care
- Leveraging a hub-spoke model to bring cutting-edge innovation to St. Louis and to share across the nation

FINANCIAL HEALTH

- Diversifying our revenue portfolio through grant funding to complement our strong direct donor support
- Joining forces with like-minded organizations through a social partnership approach to expand our reach, resources, and referrals and have a greater impact together
As a sponsor, you have an enormous impact on OHHF’s ability to support and strengthen heart families and fund the most impactful services and programs. With several sponsorship opportunities for most events, there are many ways to contribute to the need. Scan the QR Code to view our 2023 Sponsorship Menu.

“Working as the Outreach and Community Partnership Manager at OHHF is personally fulfilling. Having been inpatient with my daughter, Stella, for multiple open heart surgeries and experienced the traumas that come with raising a medically fragile child, it is incredibly meaningful to be able to support heart families daily.”

- Kate Stacy, Outreach & Community Partnership Manager & Heart Mom
As a caregiver in my personal life and serving a pediatric hospital in my professional life, I recognize and understand the importance of caring for your mental health. The work OHHF is doing in mental health speaks to me. I often questioned the quality of care I have given and have experienced caregiver fatigue. I love that Ollie’s Branch cares for the caregivers of heart children, keeping their cups filled with love, resiliency, and hope.”

- Temeka Gauss, Board Member
I met Jenn and Mark Hinkle at a trivia night. They walked in with this amazing group of friends and family in "I Heart Ollie" t-shirts and you could see and feel the love that surrounded them. I instantly connected with Jenn and Mark and bonded over our dedication to raising awareness, support, and funds needed for CHD research.

My son, Teddy was born with Tetralogy of Fallot and 22q Deletion. His CHD was discovered shortly after he was born and his deletion was confirmed a week later. My family instantly went into survival mode, dividing our time among the CICU, PICU, and home. Teddy had two heart surgeries his first year and has survived a total of 8 different surgeries throughout his lifetime. He is currently a healthy 13-year-old boy and has a team of specialists from Children’s Hospital of Philadelphia, Mercy, Cardinal Glennon, and St. Louis Children’s Hospital.

Initially, I didn't realize the trauma our family endured because we were simply surviving. Teddy had a 14-month-old brother at home, doctors, ER visits, hospital stays, more doctors, immunotherapy, physical therapy, dieticians, feeding tubes, occupational therapy, speech therapy, etc. Now that we are wiser to the world of CHD and 22q, we know that there will be hurdles, but we also know we are surrounded by love and support and will figure it out together. We are truly thankful for the family, friends, doctors, nurses, and support system that helped us get here.

When Ollie Hinkle Heart Foundation focused their mission on mental health, I was ALL in! The support they provide to families like ours is filling a huge gap in healthcare. It provides a safe space for these amazing kids and their families to understand their diagnosis and cope with what life looks like with CHD and genetic differences. Thank you Jenn and Mark for sharing Ollie’s legacy, inviting us to join your mission, and creating OHHF.

- LAURA BOHON
Heart Mom to Teddy and OHHF Board Member
THANK YOU

We are pleased to recognize the following **Heart Heroes** who contributed gifts between January 1, 2022 and December 31, 2022. Your generosity allows OHHF to continue its commitment to fighting against pediatric heart disease and strengthening heart families through loving support, providing mental and medical support, and funding impactful and innovative technology. Names are listed in alphabetical order.
